

Dan has been the Chief Information Security Officer for Monterey County for over 10 years, and has been actively involved in information security for over 20. Dan is a technical CSO who can accurately communicate business risk at the C level. Dan's background as an ethical hacker, intrusion analyst and incident responder allows him to take that understanding and make security awareness training informative and fun for end users. Dan is active with the SANS institute and therefore is continuously educated by the industry's best. Dan recently achieved a top 10% overall finish in SANS' NetWars Continuous online cyber range.
